Dear Susan And Nancy:

On behalf of my employer, I would like to let you know how pleased we are with your service. The two of you have far exceeded our expectations. We never tire of the complements we receive from our residents as well as visitors to our community.

I would wholeheartedly recommend your service to anyone interested in "bringing the outdoors in" which is what you have done in our Social Room and Ball Room. Most impressive is the way you were able to offer us choices. You were able to make our vision a reality and all within our budget. The renovation went seamlessly and maintenance continues to be flawless. It is obvious to me that you enjoy what you do. The fact that you continuously update and improve the look of our indoor gardens tells me about the pride you have in your work. It is truly a pleasure to do business with you. One look at our beautiful gardens is testament to your talent.

Thanks Again,

Susan Collins
Property Manager
